January 1 through December 31, 2023

Routine dental checkups are important, not only for the teeth but for overall health, too. These exams can help decrease the risk of health conditions in the mouth, such as cavities and gum disease, and also help dentists spot signs of other health conditions.* With your Anthem plan, you have access to one of the largest dental networks in the country, to help make it easier to take care of your dental health.

As part of your plan, you receive 100% coverage for preventive care, including regular dental cleanings, exams, and X-rays, when you receive care from a dentist in your plan's network. All plans cover preventive care with no waiting periods, so you can use your benefits right away.

Our Essential Choice PPO dental plans feature higher annual benefit maximums (the amount your plan will pay for dental care). You can carry over part of your unused dental benefits to the next year if you do not use all of them. Over time, this means you could double your annual maximum benefit. Essential Choice PPO dental plans also have shorter waiting periods than traditional plans for basic and major services, and our Incentive plan does not have any waiting periods.

The child/children rates shown in the charts below are defined as dependent children ages 0-18. Any enrollees age 19 and over use the adult rates, including dependent children over the age of 18. For a family, each adult (including dependent children ages 21-26) are rated first, and then up to the three eldest children ages 0-20. You will not be charged premiums for more than three children between the age of 0-20, even if there are more children covered by the plan.

Note that the charts below provide pricing for many of the most common family units. For other combinations, please talk to your broker or sales representative.
